

For Your Staff

Motivational Financial Security Benefits

Retaining employees is about rewards benefiting them while motivating their loyalty to you. They want their family protected in the event of adversities.

The solution is an Executive Bonus program.

It's fully tax deductible to you, no IRS approval is needed, benefit amounts may vary for each employee, and you may choose which employees to include.

Employees enjoy ownership with no vesting needed. They have access to cash value and their beneficiaries will receive the death benefit income tax-free.
